

# ARDROSSAN PASSENGER ACCESS SYSTEM RETURNS TO FULL SERVICE

Categories : [Press](#)

Date : 14th July 2020

The passenger access system (PAS) at Ardrossan Ferry Terminal has returned to operation following completion of an annual safety and maintenance inspection.

Various repairs have been carried out and wire ropes have been replaced.

The annual inspection was delayed and the PAS was closed in April due to the coronavirus lockdown. The PAS has now returned to full service as Calmac implements an increased timetable.
