

NTM 41/19 Tiree Ferry Terminal Old Pier Repair Works Updated

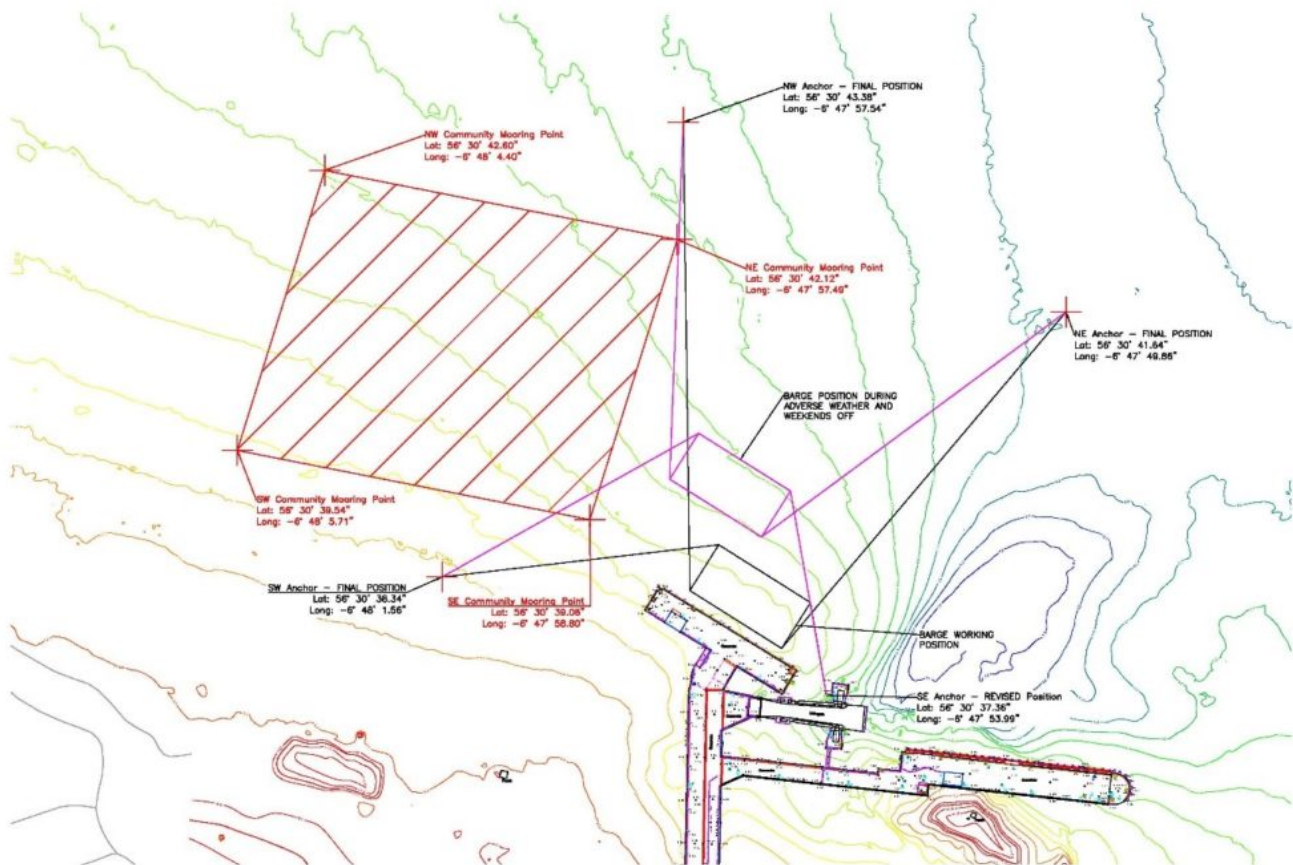

Categories : [Uncategorized @gd](#)

Date : 31st July 2019

Latitude **56° 30.634?** North (WGS-84 datum)
Longitude **006° 47.932?** West (WGS-84 datum)

Further to NTM 39/19, mariners are advised that work to install a CW-3 Crane Barge 34.3m x 18.9m x 2.74m GT 530t to carry out works at the Tiree old pierhead has now been completed. The barge is held in place by four sea anchors, located as per the updated attached drawings

All vessels navigating in the vicinity of Tiree Ferry Terminal are advised to exercise vigilance and pass at minimum safe manoeuvring speed and sufficient distance from the area of works to reduce the risk of damage or injury being caused by the passing vessel's wash or displacement. Owners and operators of high-speed vessels should be particularly vigilant regarding their speed and the wash that can be created. Crafts visiting the Community Moorings are requested to sail north around the anchor buoys to minimise disruption.
