**Date :** 29th July 2015

Mariners are advised that works to repair fendering at Oban Ferry Terminal No. 1 berth will commence on Monday 3rd August 2015.

Contractors Alchemy Ltd will be operating from the pier deck and a workboat. The works are anticipated to be completed within one day.

The contractor's supervisor will monitor VHF Channel 16 and liaise with the CalMac Ferries Ltd port manager and Masters of the CalMac ferry to ensure there is no interruption to the scheduled ferry service.

All vessels navigating in the vicinity of the Oban Ferry Terminal during this period are advised to do so with caution and regulate their speed to minimise the effects of wash accordingly.
