

NTM 78/16 Oban Ferry Terminal Linkspan No. 1 Inspection

Categories : [Uncategorized @gd](#)

Date : 22nd December 2016

Mariners are advised that weather permitting work to inspect linkspan no. 1 at Oban Ferry Terminal will commence on Thursday 5th January 2017.

It is anticipated the inspection will be completed within two days and will be undertaken from a small workboat supplied and crewed by Alchemy Plant and Contracting Ltd. At times the craft will be operating around and under the linkspan structure and may be temporarily out of view to other vessels.

The supervisor will liaise with the Port Manager and Masters of the CalMac Ferries to ensure there is no disruption to scheduled ferry services. VHF channel 16 will also be monitored.

All vessels navigating in the vicinity of Oban Ferry Terminal linkspan no. 1 on the aforementioned dates are advised to do so with caution and regulate their speed to minimise the effects of wash accordingly.

Further details can be obtained using the contact details below.
