

PROJECT UPDATE: COLINTRAIVE AND RHUBODACH

Categories : [Press](#)

Date : 1st December 2017

Contractors have completed work on the temporary slipway at Colintraive.

The ferry service is now operating from the new temporary slipway, which allows our contractors, Raynesway, access to the old one in Rhubodach in order to demolish it.

The new slipway, which will be built in its place, will be built mainly of precast concrete to ensure longevity.
